This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

SEAL OF THE CITY OF NEW YORK

SEAL OF THE CITY OF NEW YORK

The coat-of-arms was granted by King James II to the city a few months after he ascended the English throne. It was engraved on a new seal, which was delivered with much formality by the Governor, in the King's name, to the Mayor, Aldermen and Commonalty, on the 24th of July, 1686, and duly accepted by them.

There was no motto, but the legend on the seal is "*Sigillum civitatis Novi Eboraci*" in the contracted form of "*Sigill. civitat. Novi Eborac.*"—in English, "Seal of the City of New York." These arms are shown depicted in their correct heraldic tinctures, or colors. They are thus blazoned:

SHIELD: *Argent, charged with the four sails of a windmill proper; between their outer ends, two beavers proper, one in chief and one in base, and two flour barrels proper, in fess, one on each side.*

CREST: *A royal crown, or, lined gules.*

These arms have remained unchanged, and are the coat-of-arms of the City of New York to-day; the crest, however, was altered, in 1784, to a bald eagle proper rising from a demi-terrestrial globe, which was adopted, in place of the crown, from the original State arms of the State of New York.

INTRODUCTION.

The body of records which in these volumes is issued in printed form occupies, with those of Philadelphia and Albany, a rare place among the sources of American history. They correspond in general character to the records of an English municipality of the seventeenth and eighteenth centuries; while they are much more extensive and important than the accessible records of either of the cities just named. No similar memorials are known to have survived in Charleston, South Carolina, or in the few smaller boroughs which existed in the southern and middle colonies. The records of Boston, until some time after the beginning of the nineteenth century, are those of an expanded and overgrown New England town. A belief that the printing of these minutes was a necessary condition for the study of the early growth of city government in this country has led to the undertaking, the completed result of which is now submitted to the public.

These Minutes of the Common Council comprise in their entries by far the most important collection of material relating to the early administration of municipal affairs in New York which has survived. The fragments which now remain in manuscript will be found in certain ledgers and journals that were kept by the old city treasurers, in a few tax lists, in certain volumes of grants of city lands and water lots, in a few maps, ferry leases and other miscellaneous papers. Unfortunately, nearly all the papers of the

Common Council, except those which were spread upon its minutes, have disappeared.

The original rough minutes themselves have also, for the most part, been destroyed, and the text which is here presented is based chiefly upon two copies, one of which was made soon after 1880, and the other at a much earlier date. Of these the former abounds in errors, and the latter leaves much to be desired, especially in the later volumes. But fortunately, after editorial work had been begun, an early and exact draft covering the years subsequent to 1750 was brought to light, and this has been freely used for the purpose of perfecting the text for entries after that date.

Words which were repeated in the original have been printed in italics, while words or letters which it seemed necessary to introduce in order to complete the sense have been enclosed in brackets. The original spelling, capitalization and punctuation, with the special signs which were used, have been retained. The pagination of the original will also be found in the printed text.

Early in the administration of his Honor Seth Low, the New York Historical Society addressed to the Mayor a memorial requesting that steps should be taken for the publication of the Minutes of the Common Council of the City of New York covering the dates 1675 to 1776. It was also stated that the Society was ready to suggest the names of gentlemen who would be willing to supervise the editing of these records. To this proposal the Mayor acceded. After action by the Board of Estimate, he addressed a message to the Board of Aldermen requesting them to pass a resolution authorizing the work. This action was taken by the Aldermen on February 10, 1903. Their resolution provided that the committee, already named by the Mayor, and consisting of members of the Historical Society, should have editorial charge of the work. They were Herbert L. Osgood, Frederic W. Jackson, Robert H.

Kelby, Hiram Smith. The editing has been done under the immediate supervision of the Chairman. He has had throughout the efficient aid of Mr. Austin Baxter Keep. This has been important as well in the correction of the copy, as in the reading of the proof and in the preparation of the index. The index has been made by Mr. Charles Alexander Nelson, with the assistance of Mr. Keep.

By later action of the Board of City Record the contract for printing was awarded to the Martin B. Brown Company.

To the co-operation of all parties concerned must such success as has attended the prosecution of the task be attributed. Thanks are also due to the staff of Columbia University Library, and especially to Mr. Frederick W. Erb, for courtesies shown while these volumes were in process of editing.

A Petition from y^e^ Deputy Mayo^r^ Aldermen and Comonalty of y^e^ Citty of Newyorke being Read was concluded as ffollows

In Answer to y^e^ ffirst Article it is thought raisonable that [183] the Towne of Harlem shall haue Liberty to determine all Matters y^t^ come before them vnd^r^ 40^s^. att their owne Towne Court

To y^e^ Third Article it is Answered that there being these words, these Magistrates had power to appoint all Inferiour Officers, as Constables Overseers Vndersheriffs Cryers and Marshalls it is desired that it may be explain^d^ what it meant by Marshall in y^e^ s^d^ Article it is also desired y^t^ it may be explained what it meant by peculiar Laws, and how ffar they will extend, as likewise what is meant by Court of Judicature, and how ffarr y^e^ s^d^ Court is to extend, and y^t^ y^e^ Court of Judicature vnder fforty shillings being allowed it is thought Conuenient to distinguish betwixt y^e^ s^d^ Courts and make two Articles of this one being y^e^ Third Article to y^e^ ffourth Article it is thought y^t^ y^e^ watter Baillif belongs to y^e^ admiralty

And in y^e^ seuenth article Jews are to be excepted who are left to y^e^ disposall of y^e^ Governo^r^

Reasons &c:

Reasons Presented to the Gouernour by the Mayor and Aldrmen to Prohibite Bolting in Any Other Place but this Citty

In Pursuance of yor Honrs Ordor Dated ye [18th] of March Past wee the Mayor and Aldermen of the Citty of New=Yorke by And with the Advise of the Common Councell of the Sayd Citty Doe offer for Reasons, why Bolting and makeing of Bread for Transportacon, should be Prohibited In Any Other Parte of the Province, but in this Citty Only, as followeth,

This Citty being the Matropolys of the Province hath from, tyme to tyme, been the Mayne Suporte thereof the flowerishing or Decay of wch Doth Inf[l]euence all its Parts, and by itts Industry in trade and Traffique mayntained by itts Number of Inhabitants hath gained Creditt and Reputation Abroad by whose meanes alone all Foreignrs Commerce and shiping, Is Drawed hether

That the Manufacture of flower and Bread for soe wee Concent itt may be Properly Termed hath been and is the Cheif Suporte of the trade, and Traffique to and fro this Citty and Maintainance of itts Inhab[i]tants of all Degrees, and if used and Practiced in Other Parts of the Province must of necessity Lessen Our Trade and Consequently the numbr of the Inhabits Imployed therein

[256] All Other Parts of the Province haue Some Perticular Advantage and way of Liueing As Long Island by Husbendry and Whaleing Esopus being the fatt of the Land by Tillage Albany by Indian Trade and husbandry this Citty noe Other Advantage Or Way of Liueing but by Traffique and Dependance are on Another Cheifly upheld by the Manufacture of flower and Bread

To us Itt is Euident That had all Parts of the Province, Equall Liberty to make flower and Bread noe Parte thereof would be Advantaged thereby, but the trade Soe Dispersed that it would be much Impared if not wholy Loste and the Value of flower and Bread, Less to the farmer then Now his Corne is[,] the Prise of wch is kept up by the Industrey of the Inhabitants of this Citty. who first made itt A Comodity Abroad Gaind it Reputation and Are Only Proper to Continue both,

Soe that the Establishing the makeing of flower and Bread in this Citty Only takes nothing fro Other Parts, of the Province but if

Removed or Admitted in Other Parts, will be the Aparent Ruine and Decay of the Same wch how necessary itt is to Maintaine and Encourage the want of soe well A Scituated and Such A Numbr of Inhabitants Soe Encorporated in Virginia Mary=land, and Other Neighbouring Partes, may Sufficiently Demonstrate who though haue the Same Advantages from the fruits and Produce of the Earth for want thereof Can not Accreu to that Benefitt In trade by Husbandry as this Province hath and Doth Enjoy by the meanes and [257] *And* Encouragement of this Citty Only

MAY ITT PLEASE YOUR EXCELLENCY.

As A greater Blessing Could not Come to this late languishing Province then that most gracious favour, of their Majesties, in Constituting your Excellency their Lieutenant here. Soe in most humble Acknowledgment thereof, wee the Representatives of their Majesties Ancient Corporation of this their Province, doe with all Submission presume to Acquaint your Excellency that as itt has been the Sentiments of all your Excellencys Predecessors the Respective Governors of this their Majts Province as well as the Interest of the Crown That Trafique and Comerce, (the foundation of Riches as well as the increase and Support of Empire) Should be Singularly Encouraged att this place; (which by its Natural Scituation is Convenient for trade & Navigation) They were therefore pleased to publish and bestow, many Priviledges & Franchises upon Such as would come, Settle & Inhabitt here, for the propagation & Increase of trade & Comerce which gave Incouragement to the Inhabitants of *of* this Citty, to Transport themselves from their Native Country, hoping thereby to Advance ye Interest of the Crown, and increase Trafique & Navigation. the easiest and Convenient Suport of Dominion, all States & Empires having flourished under its Improvemt Whereupon the Inhabitants of this their Majesties Citty were Induced with uncessant Labour, great Charge & expence, to enrich this barren soile, & Supply Some naturall defects thereof, with Art & Industry, for the Suitable Accommodation of trade and Shipping. not doubting but this their [94] Endeavors, would have Convinced, all the Other Inhabitants, of this Province, (who have had great Advantage, by the Improvement of this Citty) that what has been done, & Invented by the Cittizens of this Citty was for ye Publick and Common

good, of the whole Province as well as for the Advancem[t] and Interest of the Crown.

But may itt Please your Excell[y]

This Citty noe Sooner began to make A figure in trade, and grow in Reputation beyond y[e] Seas, but itt became the envy of our Adjacent Neighbours who did not cease by all their litle Artifices to Interupt our trade but also did reproach us with many false Sugestions, which together with the Insinuations of particular persons, for their own private Lucre & gain, did procure Considerable branches of the Government to be lopped off; and Still not Contented, with that Devastation were restless, untill wee were Swallowed up, by that unhappy Annexation to New England. whereby our Traffique not only drooped, but all that was dear and Valuable amongst us wholly destroy'd that Ignorance which did then Spread itt Self, throughout the Province, hath Since dropped Some Seeds, which now begin to Sprout again who will not be Contented with any thing, Except all the Principles of trade be reduced to Confusion, and every Planters Hutt, throughout the Province become A Markett for flower & biskett, (the only Staple Commodity of y[e] Province.) and on which the whole trade & Revenue doth depend, for that purpose May itt Please your Excellency, they have Sett up bolting Mills in the Country in Contempt of former Orders Restraining y[e] Same, and have Commenced Suits att Law against the Citty officers for ascertaining the Rights thereof, which hath been A long time depending att the Supream Court, and after long Consideration and Advicem[t] of y[e] Judges, thereupon, att last [95] declared in favour of the Citty, only the Submission of their Opinion to the Government; Now may itt please your Excellency, many Proffitts and great Advantages hath allways Accrued, to the whole Province by the Improvements & Industry, of the Citty, & particularly the whole Income of the Revenue, doth Cheifly Rely upon the trade thereof, besides y[e] fifth part of the Charge of the whole Province & often y[e] fourth has been paid by this Citty during this Present Warr. all which will Certainly Sink if y[e] Cittizens be Interrupted in the enjoyment of their former Franchises, and Priviledges; Itt being Impossible by any Art or Invention of man for this Citty to Support itt Self, & maintain its Inhabitants, Except by trade and Comerce, which were the Causes of its foundation and the possession thereof, together with all Such Priviledges, and vsages needfull, for their Support hath allways been Ratified and Confirmed, by the Respective Governors, your Excellencys Predecessors.

May itt Please your Excellency.

In the deep Sense of your Excellencys great affections to the Interest of the Crown, which is now poss[e]ssed, by their most Excellent Majesties, who have thought nothing to dear unto them, to restore English Liberty from the late Incroachments; and having att the helm of their Government here, yr Excellency, A person soe Eminent in their favour and who Studys nothing more, then to Imitate them, in their Prowess and Vertue; Wee have therefore not the least doubt, but with all humility presume to prostrate our Selves, and Supplicate your Excellency that as you are there Majesties Vice Gerant here, and thereby the fountain of Justice goodness and Equity; that your Excellency would be pleased, to take, the decaying State, of this afflicted Citty into your favourable Consideration, and become their effectual Patron & Protector, under whose Influence itt Can only flourish.

[100] TO THE KINGS MOST EXCELLENT MAJESTY

The Humble Address of y^e^ Mayor Recorder, Aldermen & Commonality of your Majesties City & Corporation of New York in America.

MOST GRACIOUS SOVERAIGNE.

In the deepest Sense, of the Manifold blessings and mercies bestowed, upon our Nation by the Almighty God, who hath only raised your most Sacred Majesty, to be his glorious Instrument, for the Redemption, of Your people, who were lately groaning, under the Yoak of popery, and the growth of french Tyranny. Wee find itt A Duty Incumbent upon us, with all humility and thankfullness to Acknowledge your Majesties wonderfull goodness, in delivering our Nation, from that Tyranny and bondage, of the glorious effects whereof, this your Majesties Citty is not A litle Sharer, being now very Sensible of that Signall Testimony of your Royall favour in takeing us Soe Soon under your princely notice and care, by Constituting Coll Fletcher, A Gen^t^

of pious life, to be your Majesties Governor over us who Since his Arrival, hath laid Aside all other thoughts, but the true Advancement of your Majesties Interest, and tho he found great divisions amongst us, occasioned by frivolous heats and dissentions, yet by his Indefaticable diligence, & great temper, he very Speedily Allay'd them, and reduced, the Subjects, to Soe great Calmness and good Order, that they were wholy Convinced, that nothing Could be more, their duty, then to Unite & Support yr Majesties Government over them; whereupon that there might be A perfect Oblivion, of all former Animosities, he passed by all Respect to persons, or factions, and prefered without distinctions, Such persons, of moderate Spiritts to the Chiefest Stations in the Civil & Military Government, these Steps proved Soe effectual, as to increase Unity and love [101] Amongst your Majesties Subjects; And being in the full enjoyment thereof, wee were not A little Surprized, when on A Sudden A Spark of fire broak out, likely to reduce your Majesties Government into Confusions Again Many of the late disturbers, begining to fall back and coole in their Affections to your Majesties Interest, His Excellencies Vigilence did Soon discover the Cause, and found the Coals of Dissention were blown up by Sr William Phipps, A person who ought to have had more Regard, to the dignity of the Character he bears by your Majesties favour, but laying that duty aside, degenerates from his Alleigance, and Setts his Emissarys att work to Allienate ye Affections of your Majesties Subjects from their duty to your Majesty, Reflecting upon your Majesties Government, Established here, by your Majesties Authority, and Insinuateing by the Libells Sent Amongst the Ignorant people, that the Legall proceedings, made by your Majesties authority in this Province, Since your Majesties happy Accession to the Crown, were of noe force, and that other Tumultuous Acts, would be Justified by your Majesty, borrowing your Majesties Sacred name, to Cover his turbulent designs, that he might with the greater ease, blow up the Coals of Rebellion Amongst us all your Majesties dominions upon this Main of America being likely to Share, in the consequence of Such disorders.

Wee therefore most dread Soveraigne from the true Affection & Alleigance, that wee Indispencibly owe, unto your Sacred Majesty Presume that wee Cannot without failure of our duty, but Lay att yr Majesties Feet, this our Adress, & Representation of our Present State, have therefore Supplicated his Excellency, your Majesties Captain Generall, yt he would give us Liberty to make this dutifull Application, unto your most Sacred Majesty; Soe Most Gracious Soveraigne, whilst your most Sacred person is Ingaged in Asserting the Interest of God

and your people, by Subdueing the Enemy of Christendom, Wee humbly pray that your Sacred [102] Majesty, would rest Assured, with Intire Confidence that wee your Majesties most dutifull and Loyall Subjects, The Cittizens of this your Majesties Citty will allways with our lives and fortunes appear in your Majesties defense & yᵉ Vindication of your Majesties Authority, against the opposition of all your Majesties Enemies, whatsoever, and to that ever blessed and all powerfull God, who has Inspired your Majesty to bring his glorious purposes, to pass, wee offer up our most humble and unfeigned prayers for your Majesties long life and prospe[r]ous Success, against all your Majesties Enemies, and that your Majesty may be allways protected by him, Shall be the dayly prayers, of Your Majesties
